SECNAV INSTRUCTION 11300.1A

From: Secretary of the Navy
To: Chief of Naval Operations
Commandant of the Marine Corps

Subj: Utility Services; sale of

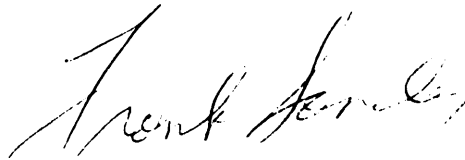

Ref: (a) 10 USC 2481

1. Purpose. To provide policy guidance concerning the sale of utility services to others and the establishment of rates, rules and regulations relating thereto.
2. Cancellation. SECNAVINST 11300.1 of 27 July 1953 is hereby superseded.
3. Background. The Department of the Navy presently furnishes utilities and related services to private parties within or in the immediate vicinity of Naval and Marine Corps activities under the authority of reference (a). Such services are only extended after the statutory requirements are met. In addition, it is necessary to establish appropriate rates which will recover fully the cost to the Government.
4. Policy. It is the policy of the Department of the Navy to limit the extension of utilities services to private parties to only those instances where the statutory requirements are met and where the supply of such services will not interfere with the mission of the activity. Once service is furnished to a private party, rates are established which recover fully the cost to the Government, including capital cost, and in those instances where the entire cost is less than that of the comparable rate charged by a local supplier in the area, the private party is furnished the service at the comparability rate.
5. Delegation of Authority. Pursuant to reference (a) authority over matters relating to the sale and furnishing of utilities and related services to purchasers is delegated to the Chief of Naval Operations and Commandant of the Marine Corps to act for the Secretary in all matters relating thereto.
